FOR IMMEDIATE RELEASE

**BADEN SIGNS CONTRACT TO MANUFACTURE
WASTEWATER TREATMENT SYSTEM**

Richard Ball, Chairman of the Board of Directors of Baden Technologies Inc., is pleased to announce that its wholly-owned subsidiary FSI International Services Ltd. has signed a supply contract with an Alberta-based environmental company.

FSI will fabricate, install and commission a wastewater treatment facility designed to flush residual fluids from well stimulation pumpers, and to reuse this fluid rather than by deep-well disposal. The facility will be part of the client's new state-of-the-art building designed specifically for this function.

The contract is valued at approximately \$500,000, and fabrication will be completed in the fourth quarter of 2006.

Through its wholly owned subsidiary FSI International Services Ltd., Baden Technologies Inc. is a Calgary-based manufacturing and service company specializing in customized filtration, filtration-related technologies and Brine Plants for the international and domestic energy and chemical industries.
